

Pinedale Estates Domestic Water Improvement District
PO Box 1553
Lakeside, Arizona 85929
(928) 367-6621

August 16, 2018

Greeting from the Pinedale Estates Domestic Water Improvement District!

Your board would like to update you on the progress made towards improving our water system.

Kleansweep Contracting (Barry Harville) has made required repairs and installed two 5,000 gallon storage tanks to replace the leaking storage tank. Well meters have also been installed so we can monitor leakage and get a better handle on our supply. We would still ask our customers to be careful with their usage until further improvements can be made. We are currently exploring grant or USDA Rural Development loans to make further improvements to the system but this will be a long process.

Customers have been very cooperative with the new rates and billing schedule. Please go to our new website <https://pinedalestateswater.myruralwater.com> and sign up for alerts using your email or cell phone. You can also pay your bills online using your credit card. Please contact the office if you have any problems. We will not overwhelm you with alerts. You can also find information about rates, rules and regulations as well as new service applications.

Please remember that you can have your monthly water bill emailed to you for your convenience.

The next board meeting will be held on September 3, 2018 at 10:00 a.m. at the Pinedale Fire Station.

Mike Eckert, Chairman
Charles Mead, Vice Chairman
Ray Hinesly, Treasury
Gary Engman, Board Member
George Jones, Board Member

Please remit all payments to the above address and address billing questions to Stephanie G. Irwin CPA at 928-367-6621 or sgicpa@frontiernet.net. If you have water delivery issues please contact Barry Harville at (928) 242-0320 or kleansweepops@yahoo.com.
